OUR UNIQUE QUARTZ

Quartz is an excellent choice for worktops, thanks to its durability, stunning aesthetics, and minimal maintenance needs. Available in a diverse array of colours and styles, it can complement any design scheme while remaining highly resistant to stains and scratches. Its non-porous nature ensures that it is both sanitary and easy to clean, making it a practical option for busy kitchens. By choosing quartz, you're investing in a high-quality, long-lasting surface that not only enhances the elegance of your space but also provides enduring functionality for years to come.

OUR UNIQUE CERAMIC

Ceramic is a versatile and durable product that mimics natural materials like marble and granite without their drawbacks. Ideal for worktops, it resists scratches, stains, and heat, and comes in various colours and textures for different design preferences. It is also UV resistant and has low water absorption, making it suitable for both indoor and outdoor use. Whether you prefer a sleek modern look or a more traditional style, ceramic offers a variety of finishes to suit your preferences. Choosing ceramic means selecting a reliable, long-lasting surface that combines both beauty and functionality.

Quartz Worktop Overview

Quartz is durable, non-porous, highly resistant to stains and scratches, very easy to clean and requires no sealing.

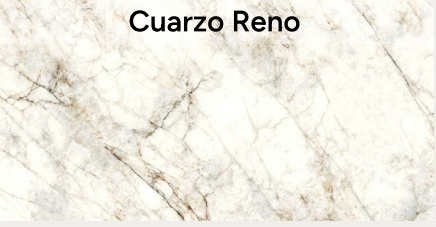

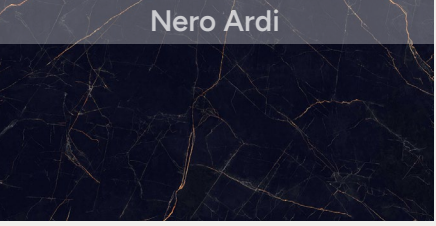

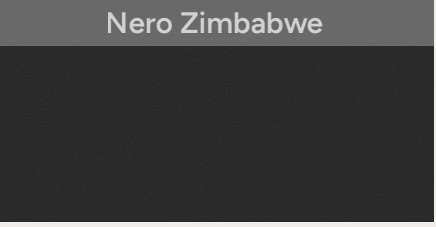

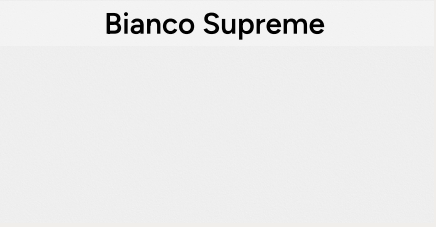

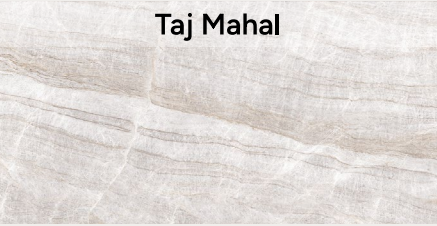

Choosing quartz will provide you with a long lasting, high quality surface that will provide functionality for years to come.

Ceramic Worktop Overview

Ceramic worktops offer durability, heat resistance, and low maintenance. They are a versatile and stylish option for kitchens, bathrooms and outdoor spaces.

When it comes to choosing colours, there is a wide variety to pick from. Different colours can evoke different emotions warmth, luxury, serenity. Whether you are choosing a colour for your home or a design project, we have many options to suit your needs and express your individuality and style.

OUR PRODUCT CARE & MAINTENANCE

WHEN IT COMES TO CARING FOR WORKTOPS, HERE ARE SOME
TIPS TO KEEP IN MIND TO ENSURE THAT YOUR WORKTOPS
REMAIN IN GREAT CONDITION FOR YEARS TO COME:

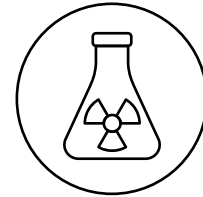

DAILY CLEANING

Wipe the surface with a soft cloth or sponge and a mild detergent to remove any spills or debris.

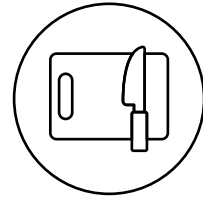

STAIN PREVENTION

These non-porous materials resist stains, but it's best to clean spills promptly to avoid potential staining.

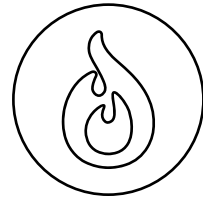

NO HARSH CHEMICALS

Steer clear of abrasive or acidic cleaners as they can dull and damage the surface of the worktops

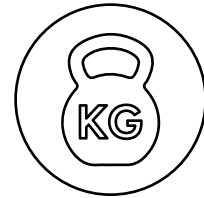

USE CUTTING BOARDS

While highly scratch-resistant, it's still a good idea to use cutting boards to prevent any potential damage.

AVOID HEAT

While these materials are heat-resistant, prolonged exposure can damage the surface. Always use a trivet to protect the worktop.

AVOID IMPACT

Though durable, avoid dropping heavy objects on the countertop to prevent chips or cracks. Also, avoid hitting the front edge with kitchenware.

NO BODY WEIGHT

Despite durability, these materials can't support the weight of a person or heavy appliances as this may damage the worktop. Use caution.

MAINTENANCE AND CLEANING INSTRUCTIONS

PLEASE KEEP IN MIND THE
FOLLOWING GUIDELINES FOR
CLEANING YOUR SURFACE:

- Clean your surface using mild washing-up liquid, water, and a soft cloth or paper towel. After cleaning, rinse with clean water and dry thoroughly.

- Avoid using abrasive cleansers, harsh scouring pads, or cleansers that contain bleach on your surface.

- Wipe up any spills as soon as possible, especially pigmented powders or liquids, to avoid staining.

- Some colours and finishes, such as honed or matte, are more prone to showing grease or fingerprints and require extra care during routine cleaning.

- Do not use metal knives and utensils directly on your surface, as they may scratch or leave hard-to-remove marks. Always use a chopping board when preparing food to avoid chips or scratches in your worksurface.

- When removing oil or grease from your surfaces, clean up the spill as soon as possible. When cleaning hardened fatty deposits, remove with a cloth or paper towel and clean as normal with washing detergent.
